

Quick Service Restaurant Plans

Maximize your profits, delight customers, and easily run your quick-service restaurant using one system. Unify financials, reporting, credit card processing, inventory, and more empowering you to manage your restaurant efficiently. Our plans cater to restaurants of all sizes, from a few locations to thousands.

Select the perfect plan to suit your business requirements today and effortlessly scale up as you grow.

Entrée

\$1,225 USD/month

\$10,000 USD implementation fee
Up to 36 hours of services & training

Our Entrée Package includes all the key features needed to run your quick-serve restaurant.

This includes financial management and reporting, store operations, inventory and item management, item modifiers, and preconfigured POS templates and layouts for taking orders in your restaurant at the point of sale.

Combo

\$1,850 USD/month

\$35,000 USD implementation fee
Up to 146 hours of services & training

Building on the Entrée Package, our Combo Package takes the management of your restaurant to the next level without too much overhead.

You'll get more sales history imported from your old system, pricing and promotions, and advanced inventory management features such as automatic replenishment.

Party

\$3,900 USD/month

\$80,000 USD implementation fee
Up to 360 hours of services & training

Our Party Package includes everything from the Combo Package and is built for complex quick-serve restaurants that need advanced features.

This package includes our white glove implementation service, member management, loyalty programs, customized POS layouts, and integrated credit card and gift card processing.
