

TOP 10 CONSIDERATIONS

When Migrating from Dynamics GP to Business Central

The Future of Dynamics GP

Microsoft confirmed GP will never get a cloud version. Mainstream support ends **December 31, 2029**, with security patches ending **April 30, 2031**.

Your Current State

Have you adjusted your business processes to fit the limitations of your current system?

Roadmap & Goals

Will GP be able to accommodate your business's milestones now and into the future?

Move to the Cloud

Many businesses are moving to the cloud for stronger security, flexibility, and data access.

Microsoft Benefits

Enjoy price incentives as well as productivity and collaboration tools like Microsoft 365.

Protect Your History

Preserve years of transactional history and key customizations without losing critical context.

The True Cost

Factor in total ownership cost, licensing, maintenance, and lost productivity from an aging system.

Audit Customizations

Review existing Dynamics GP customizations and ISV add-ons to scope your true migration effort.

Create a Plan Now

Build a plan, budget, and research a viable product and partner for your implementation.

Take the First Step

Discover your path with a trusted Business Central expert. Book your free migration assessment today.
