

Thinking of Migrating from GP to Microsoft Dynamics 365 Business Central?

Top 10 Considerations

The Direction of GP

Microsoft's releasing **only 3 updates per year** through 2024, with no promise of a cloud version.

Your Current State

Have you **adjusted your business processes** to fit the limitations of your current system?

Your Roadmap and Goals

Will GP be able to accommodate your business's **milestones** now and into the future?

Moving to the Cloud

Many businesses are moving to the cloud for stronger **security, flexibility, and data access.**

Stay with Microsoft

Enjoy **price incentives** as well as productivity and collaboration tools like Microsoft 365.

Your Smoothest Route

Staying in the Microsoft family is **unmatched** compared to other providers and solutions.

Weigh all Your Options

Moving to the cloud is the best choice, with **83% of enterprise workloads in the cloud.**

Talk to an Expert

Discuss with a partner who has expertise in **Microsoft Dynamics ERP applications.**

Create a Plan Now

Build a **plan, budget, and research** a viable product and partner for your implementation.

Take Your First Step

Discover your path with a trusted **Dynamics 365 Business Central expert.**
